

# Health Savings Accounts

## Maximize your savings

**A Health Savings Account, or HSA, is a tax-advantaged* savings account you can use for healthcare expenses. Along with saving you money on taxes, HSAs can help you grow your nest egg for retirement.**

### How an HSA works:

- Contribute to your HSA by payroll deduction (if offered through your employer), online transfer or personal check.
- Pay for qualified healthcare expenses for yourself, your spouse and your dependents. Both current and past expenses are covered if they're from after you opened your HSA.
- Use your Benefits Card to pay directly, or pay out of pocket for reimbursement or to grow your HSA funds.
- Roll over any unused funds year to year. It's your money — for life.
- Invest your HSA funds and potentially grow your savings.**

### Am I eligible for an HSA?

You're most likely eligible to open an HSA if you:

- Have an HSA-eligible health plan like a high-deductible health plan (HDHP), Bronze plan or Catastrophic plan
- Aren't covered by any other non-HSA-compatible health plan, like Medicare Parts A and B or TRICARE
- Haven't received medical benefits from Veterans Administration in the last three months
- Can't be claimed as a dependent on someone else's tax return
- Have a valid email, Social Security number and primary U.S. residence

## How much can I contribute?

The IRS limits how much you can contribute to your HSA every year. This includes contributions from your employer, spouse, parents and anyone else.***

## Catch-up contributions

HSA accountholders not covered by Medicare and over the age of 55 can make an additional $1,000 "catch-up" contribution. Contributions need to be prorated if you don't maintain HSA-eligible coverage through the end of the following year or enroll in Medicare mid-year.

## What's covered?

You can use your HSA funds to pay for any IRS-qualified healthcare expenses, like doctor visits, hospital fees, prescriptions, dental exams, vision appointments, over-the-counter medications and more.

| Maximum contribution limit | **$4,500** | **$9,000** |

## Triple tax savings

A huge benefit of HSAs is saving on taxes* three ways:

1. You don't pay federal taxes on contributions to your HSA.
2. Earnings from interest and investments are tax-free.
3. Distributions are tax-free when used for qualified healthcare expenses.

* HSA contributions and earnings aren't subject to federal taxes and aren't subject to state taxes in most states. Contact a tax professional for information about your state.
